

LETTER OF MOTIVATION INTERNAL AUDITOR

DEAR YENIES,

With this letter I want to express my interest in becoming one of YEN's Internal Auditors. By now, I have gained a profound experience of how the YEN-network and its finances work, therefore, I would like to apply this knowledge to the benefit of the organisation.

I found my way to YEN through my local organisation Gjuventetgna Rumantscha (GiuRu), the Rumantsch youth in Switzerland. After many missed out chances, in summer 2017, I finally decided to participate in a YEN event, the Diversity Festival in Gdańsk, and was caught by YEN's magic rightaway. With YEN a whole new world opened to me, a world as diverse, colourful and empowered I could not have imagined before. It did not take long until I ran for the Board.

At this General Assembly 2020, my term as the President of YEN comes to an end. It has been an experience, which is hard to put into words. During this journey, I learnt a whole set of new skills. Next to improving public speaking and networking skills while representing YEN to the in- and outside, I learnt how to effectively organise and lead an international team with volunteers and staff alike. Additionally, I deep-dived into operational and administrative budgeting, personal management, application-writing and fundraising, which will be meaningful skills when being an Internal Auditor. Besides, I could closely follow the development of the organisation within those two and a half years, allowing me a valuable insight to the organisation, its aims and capacities.

I want to pass on the knowledge I gained and be of use with it for the further development of YEN.

Additionally, I would just be very happy to still be a part of YEN.

Thank you for making this journey so amazing. Hopefully, we will continue it together!

Best regards,

GIUANNA BEELI
